

fp::fpData::returnNumClasses

```
graph LR; A[fp::fpData::returnNumClasses] --> B[fp::inputData::returnNumClasses];
```

The diagram illustrates a return value flow. A gray rectangular box on the left contains the text 'fp::fpData::returnNumClasses'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'fp::inputData::returnNumClasses' on two lines.
