

fp::rfTree::loadFirstNode

```
graph LR; A[fp::rfTree::loadFirstNode] --> B[fp::fpSingleton::getSingleton]
```

A diagram showing a call from the function `fp::rfTree::loadFirstNode` to the function `fp::fpSingleton::getSingleton`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

fp::fpSingleton::getSingleton
